DETAILED COVID MANUAL

SOCIAL DISTANCING AND CROWD CONTROL

FAIR AREA HYGIENE

MEDICAL SERVICES

Social Distancing and Crowd Control

- The crowd intensity on the fair area, which is supposed to be 1 person per 10 sqm, will be observed through the entry and exit gate turnstiles, online registration, exhibitor portal, MyTüyap mobile application, and cameras and will be intervened when deemed necessary.
- To enter and exit the fair area, separate gates will be used
- 1-meter apart ground markings will be applied for the lines in front of the fair entrance counters.
- Hall corridors are planned in minimum 3-meters to allow easy flow of visitors. Corridors will be designed one-way separately and supported with social distancing signage
- Cafes and restaurants on the fairground, lounge areas, press, and VIP rooms will be rearranged to accommodate social distancing rules.
- Social distancing signages will be placed in toilets, smoking areas, elevators, and escalators.
- Meeting room capacities will be revised in accordance with social distancing rules.
- The masjids in the fair area will be used in accordance with the social distancing regulations stated by the Turkish Republic Ministry of Health.
- In order to control the number of persons on the fairground during the show, participating companies will be given a limited number of exhibitor badges according to their stand size.

Fair Area Hygiene

- Each person at the fair area MUST wear a mask covering their noses and mouths, during set-up, exhibition, and break down periods. Persons not complying with this rule will be escorted out of the fair area by security.
- Everyone entering the fair area will be subject to the HES Code (a personal code implemented by the Republic of Turkey - Ministry of Health), ID control, and contact-free temperature check. Persons who have COVID connections on their HES Code and/or have a fever over 38 degrees Celcius will not be admitted to the fair area.
- Disinfectant carpets/floor mats will be placed at the entrances of the fair area.
- Single-use cutlery-packs will be used in cafes and restaurants and lounge areas on the fairground. There will be no open buffet food/beverage services.
- The fair area will be disinfected every evening of the show.
- Common areas will be disinfected regularly.
- Disinfection stands will be placed in designated areas of the exhibition.
- Hygiene signages in Turkish and English will be placed in the fair area.
- Hygiene waste bins will be placed in the fair area.
- All visitors will be encouraged to pre-register online, and have their badges ready in advance.
- All payment transactions will be encouraged to be done by credit card
- In order to minimize contamination, there will be no cloakroom service.
- Tüyap personnel who will be communicating with exhibitors and visitors will wear a mask and a protective shield.
- Additional stand material to be rented by Tüyap will be disinfected before delivery.
- Turkish Republic Ministry of Health guidelines will be followed on transport/shuttle services.

TÜYAP

Medical Services

- Ambulance and medical teams are on standby at all fairs during setup, exhibition, and break down periods.
- Anyone showing symptoms of COVID will be taken to the isolation area and directed to a medical organization.
